

My publications from January 2022 to July 2022

ART212

Muñoz, Lucio, 2022. **Sustainability thought 169: Does defining sustainability as sustainable development requires alternative academic facts? If Yes, what is the nature of these alternative academic facts?**, In: *International Journal of Latest Research in Humanities and Social Science (IJLRHSS)*, Volume 05, Issue 07, Pp. 37-43, India.

[Sustainability thought 169: Does defining sustainability as sustainable development requires alternative academic facts? If Yes, what is the nature of these alternative academic facts?](#)

ART207

Muñoz, Lucio, 2022. **Sustainability thought 164: How to link the general market structure-population dynamics-system stability framework to the concepts of optimal pricing, of distorted market pricing and of the most distorted market price?**, In: *International Journal of Latest Research in Humanities and Social Science (IJLRHSS)*, Volume 05, Issue 07, PP. 01-08, India.

[Sustainability thought 164: How to link the general market structure-population dynamics-system stability framework to the concepts of optimal pricing, of distorted market pricing and of the most distorted market price?](#)

ART201

Muñoz, Lucio, 2022. **Sustainability thought 158: How can the general responsible market structure-population dynamics-system stability framework be used to point out the embedded neutrality assumptions under which the UN/UNEP responsible consumption and production framework operates?**, In: *CEBEM-REDESMA Boletín*, Año 16, N° 6, June, La Paz, Bolivia.

[Sustainability thought 158: How can the general responsible market structure-population dynamics-system stability framework be used to point out the embedded neutrality assumptions under which the UN/UNEP responsible consumption and production framework operates?](#)

ART200

Muñoz, Lucio, 2022. **Sustainability thought 157: How to link the general market structure-population dynamics-system stability framework to the concepts of right market pricing and wrong market pricing?**, In: *CEBEM-REDESMA Boletín*, Año 16, N° 5, May, La Paz, Bolivia.

[**Sustainability thought 157: How to link the general market structure-population dynamics-system stability framework to the concepts of right market pricing and wrong market pricing?**](#)

ART202

Muñoz, Lucio, 2022. **Sustainability thought 159: How can the general irresponsible market structure, irresponsible population dynamics and irresponsible system stability framework be used to point out the embedded neutrality assumptions under which irresponsible population dynamics frameworks like the ecological overshoot work?**, In: *IAR Journal of Tourism and Business Management(IARIJTBM)*, Vol. 2, Issue 3, Pp. 1-7, ISSN Print : 2789-6013 | ISSN Online : 2789-6021, Kenya.

[**Sustainability thought 159: How can the general irresponsible market structure, irresponsible population dynamics and irresponsible system stability framework be used to point out the embedded neutrality assumptions under which irresponsible population dynamics frameworks like the ecological overshoot work?**](#)

ART204

Muñoz, Lucio, 2022. **Sustainability thought 161: How to link the market structure-population dynamics-system stability framework to the concept of responsible and irresponsible market pricing? What are the main implications of doing this?**, In: *International Journal of Business Management and Economic Review(IJBMER)*, May-June 2022, Volume 5, Issue 3, May-June, Pp. 37-44, ISSN 2581-4664, India.

[**Sustainability thought 161: How to link the market structure-population dynamics-system stability framework to the concept of responsible and irresponsible market pricing? What are the main implications of doing this?**](#)

ART203

Muñoz, Lucio, 2022. **Sustainability thought 160: System stability issues under the sustainability eye: Stating the market structure-population dynamics-system stability framework and its systematic implications**, In: *International Journal of Management studies and Social Science Research(IJMSSSR)*, Vol. 4, Issue 2, March-April, Pp 218-227, ISSN: 2582-0265, India.

[Sustainability thought 160: System stability issues under the sustainability eye: Stating the market structure-population dynamics-system stability framework and its systematic implications](#)

ART198

Muñoz, Lucio, 2022. **Sustainability thoughts 155: How does a general perfect social market paradigm evolution model is expected to work? The cases of expanding social markets, of saving social markets from collapse, and of the fall of social markets due to binding economic externality pressures**, In: *International Journal of Education Humanities and Social Science(IJEHSS)*, Volume 5, Jan-Feb, Issue 1, Pp. 205-220 , ISSN 2582-0745, India.

[Sustainability thoughts 155: How does a general perfect social market paradigm evolution model is expected to work? The cases of expanding social markets, of saving social markets from collapse, and of the fall of social markets due to binding economic externality pressures.](#)

ART197

Muñoz, Lucio, 2022. **Sustainability thoughts 154: How does a general perfect red market paradigm evolution model is expected to work? The cases of expanding red markets, of saving red markets from collapse, and of the fall of red markets due to binding environmental externality pressures**, In: *CEBEM-REDESMA Boletin*, Año 16, N° 1, January, La Paz, Bolivia.

[Sustainability thoughts 154: How does a general perfect red market paradigm evolution model is expected to work? The cases of expanding red markets, of saving red markets from collapse, and of the fall of red markets due to binding environmental externality pressures](#)

ART181

Muñoz, Lucio, 2022. **Sustainability thoughts 138: How does a general red socialism market evolution model is expected to work? The cases of expanding red socialism, of saving red socialism from collapse, and the case of the fall of red socialism due to binding economic sustainability pressures**, In: *International Journal of Education Humanities and Social Science(IJEHSS)*, Vol. 5, No. 1, Pp. 64-80, January-February, ISSN: 2582-0745, India.

[Sustainability thoughts 138: How does a general red socialism market evolution model is expected to work? The cases of expanding red socialism, of saving red socialism from collapse, and the case of the fall of red socialism due to binding economic sustainability pressures](#)
